

EXTRAVAGANT INDULGENCES

LEGENDARY PUTTING PLEASURE

Driven by science and the desire for perfect putting, two French companies – S.T. Dupont and ValGrine - introduce a new edition putter for golfers looking for perfect proportion and performance – the model Dandy 2014. A stainless steel blade insert allows a firmer touch and its engraving accelerates the release of the ball. For perimeter support the blade is affixed by 8 brass and gold alloy screws, offering the tolerance and precision required for the pleasures of putting. Playing golf with confidence, style, and elegance while at the same time using an instrument of beauty is what the Dupont and ValGrine heritage of excellence is all about.
